**EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with David Burns on 4/2/09.

The application has been amended as follows:

**In the claims:**

**Please cancel claim 6**

***Response to Arguments***

Applicant's arguments, see Remarks, filed 3/3/09, with respect to the rejection of claims 1-4 under 35 U.S.C. 103(a) have been fully considered and are persuasive. The rejection of claims 1-4 under 35 U.S.C. 103(a) has been withdrawn. Applicants' arguments regarding the rejection of claim 6 are now moot because claim 6 has been canceled with the above Examiner's Amendment.

***Allowable Subject Matter***

Claims 1-4 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record does not teach or fairly suggest a separator plate being formed such that it

has an outer peripheral surface that is offset by a distance that is equal to a seal member thickness that protrudes inside along a planar surface of a gas diffusion layer in order to form a flow field wall using the seal member and there is no motivation in the prior art for a skilled artisan to make the instantly claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***
